Transfer Your CFT Credits to a College or University!

The American Council on Education's College Credit Recommendation Service (ACE CREDIT) has evaluated and recommended college credit for these courses. The American Council on Education, the major coordinating body for all of the nation's higher education institutions, seeks to provide leadership and a unifying voice on key higher education issues and to influence public policy through advocacy, research, and program initiatives.

ACE CREDIT connects workplace learning with colleges and universities by helping adults gain access to academic credit at colleges and universities for formal courses and examinations taken in the workplace or other settings (CFT) outside traditional higher education.

Students who successfully complete ACE-evaluated CFT courses are able to have college credit recommendations from the ACE Transcript Service, a central national database, submitted to various institutions of higher learning for consideration.

When you are ready to transfer your CFT credits to a college or university, please contact the CFT office to request a Recordkeeping Services Request Form.
